Re: Second Written Request for Annual Report for the Years 1990 thru 1995

Dear Mr. Gubler:

As of this date, we have not received your annual report for the Bloomington Hills mine, file number S/053/007, located in Washington County, Utah. In a phone call of March 22nd, you stated you would check if you wanted to be released from your permit because your lease has expired. We still need the annual report until you have been officially released from this Division as explained below. We have not received your reports since 1989. Please include all years in your filing.

The Utah Mined Land Reclamation Act, Title 40-8-15, subsection (2) and Rule R647-3-116.1 of its interpretive rules, require a mine operator to file an annual report with this Division by January 31st of each year. This report is required regardless of mine activity, unless the Division grants a written waiver from the annual filing requirement, or the operator receives a formal release from continued reclamation obligations from the Division. Your failure to file this report, may constitute a violation of the Mined Land Reclamation Act, which could result in the issuance of a Notice of Noncompliance and/or a formal Notice of Agency Action.

We assume that your failure to return the completed annual report form was an oversight. Accordingly, we are once again requesting that you submit the required report to this office. Please return the enclosed annual report form no later than April 15, 1996. Please contact me if you cannot meet this deadline or have questions or concerns in submitting the report. Thank you for your cooperation and prompt attention to this matter.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
